The Cleft School Project, which was formally inaugurated on December 26, 2009, has been expanded from 80 to 82 students in 2016.

The Hyderabad Cleft Society would like to express its gratitude to the Cleft Kinder Hilfe Schweiz for their financial support to school project.

Achievements:

Of the 82 children presently enrolled in the school, 68 children study at Krishnaveni Talent School, Hyderabad spread over grades I to X. 10 students joined pre university courses (Intermediate) at Sri Chandra Junior College and Sangam Laxmibai Junior College, Hyderabad. 1 student is pursuing Mechanical Engineering at Mahaveer Institute of Science and Technology, Hyderabad. 1 student is studying B.Sc. (Biotechnology) at HRD College, Hyderabad.

Padmavathi, who was accepted to complete her schooling at the prestigious Ross School in New York, USA is excelling at her courses.

Visitors:

This year saw some important visitors to our school.

1. Ms. Ilse Manhard. Ilse has been a regular visitor to our school over the last few years. She uses her vast experience as a pediatric nurse to help the children and the administration to run the school
2. Ms. Katharina Bode. Katharina is the CEO of Cleft Kinder Hilfe Schweiz. She visited the school and to understand and streamline the administration of the school.
3. Mr. Dean Forbes. Dean is a photographer and he spent time at the school photographing the children and their surroundings. Deans pictures can be used to raise funds for the school.

ARC ACADEMY

Academic programs

1. Dr. Sidra Ansari & Dr. Kriti Jain completed their Fellowship in 2016.

Research programs

Dr. Abhilash Pasare, Oral Pathologist, started a research project in association with the Universitätsmedizin, Göttingen, Germany on Nitric oxide synthase gene polymorphisms and its association with cleft palate patients: A genome wide association study in 2015. Dr. Pasare has started a pilot study of this project by collecting samples for genetic testing at the University of Göttingen. If there are positive results in the pilot study there is scope for Dr. Pasare to enroll in the PhD program at the University of Göttingen.

Funding

We have also raised funding to treat complex craniofacial anomalies in a private hospital in conjunction with the Departments of Pediatric Neurosurgery and Pediatric Anesthesia. We have performed 4 intracranial hypertelorism corrections in 2016 with the funding raised through this effort. This funding was provided by fund transfers and donation of instruments and implants by the Ravi Educational Foundation, Dr. Raj Chowdary and Dr. Likith V. Reddy.
